

# JEREMY & HALEY

## DEAR BIRTH MOTHER,

Hello! We are Jeremy & Haley. Thank you for considering us as adoptive parents for your child. We are very excited to have the opportunity to be parents. We are so thankful that you recognize that life is a blessing, and that you are considering adoption for your child. We have prayed for children for several years. We believe that our prayers may be answered through adoption. We would love for you to read more about us to get to know us better!

JEREMY & HALEY

# HOW WE MET

Jeremy and I met on Match.com in 2018. It must have been meant to be as I was only on for a couple hours before Jeremy messaged me, and we have been inseparable ever since. We dated for a year before getting engaged, and we got married in 2020! We have been married for almost 4 years now, but have been together for over 6 years. We bought our first house in February of 2021. It has a huge backyard that is fully fenced with a small garden and fire-pit. We are within walking distance of 2 parks and an elementary school.

Our family likes games. We play a variety of board games, card games, and outdoor games. On evenings at home, we have fun putting puzzles together, spending time outside walking our dog, and watching movies. We love to travel. Each year we try and take a few days off to go visit family that lives in Minneapolis. We would love to visit all 50 states!

We don't have any children yet, but we do have our dog, Jake. He is an 18-month-old yellow lab. He is super good with kids and greets everyone that comes in the house. He loves having his tummy rubbed, and playing frisbee and tennis ball in the back yard. Jake loves his after-work walks. He also loves having his head hanging out the window on car rides. He spends a lot of time napping and "guarding" the house.

# OUR FAMILY

Haley's parents live about 15-20 minutes from our house. She has a sister who is married and has a 4-month-old son. They live close to our house as well. Jeremy's parents live on a farm in Iowa about 20 minutes from our house. Jeremy has one brother who is married with two kids, one son (4) and one daughter (2) and they live close to us too. We also have many aunts, uncles, and cousins that live close and that we stay in contact with. Some live in different states, so we don't see them as frequently. Our extended families are very important to us.

About  
**HALEY**   
by Jeremy

Haley is the most amazing person I know. She always has a smile on her face that can make anyone around her smile. Haley has always wanted to be a mom. She is a great aunt to our 2 nephews and 1 niece. Haley has the nurturing instinct of a mother that shows up every time she watches our niece or nephews. She loves taking them to the local pools and doesn't hesitate to volunteer to watch them any time she can. She has a strong faith that has kept us both together through all our hard times. She is so caring and always puts others before herself. She is very intelligent and a great communicator at her job. She has been there for over 5 years now.

Haley loves watching SDSU football and basketball games either in person or on TV. She also loves to take our dog, Jake for walks after work. Haley is also very organized and likes to plan things out so when we have kids, she will be on top of the crazy schedules that may come up. She is also the voice of reason in our marriage to keep us grounded when I tend to be spontaneous.

# About JEREMY

by Haley

Jeremy works as a Certified Pharmacy Technician for a long term care pharmacy. He has been a Certified Pharmacy Tech for 11 years now. When Jeremy isn't working, you will find him outside working on projects around the house or at the farm. He is also the maintenance man of the house and enjoys caring for the lawn and snow blowing. Jeremy also enjoys watching his Iowa Hawkeyes play football, Minnesota Twins play baseball, and the Vikings play football. Jeremy is more spontaneous than me and challenges me to go more with the flow of life. He also supports and encourages me to pursue my hobbies and interests. He is more adventurous and will be the one more likely to say yes to the kid's crazy ideas.

# WHAT WE HOPE TO OFFER A CHILD

Haley's job allows for flexibility to either work in office or from home. We have a house ready to be filled with kids. We both have stable jobs and the ability to provide for a child's needs. We grew up with the value of hard work instilled in us, and we plan on passing that onto our children. We are active in our church and plan to raise our children in a Christian home. We will encourage them to attend college or pursue a professional career. We intend to support our children in multiple ways, through prayer, emotionally, and financially. Family is something we value. We look forward to re-creating some of our childhood traditions, as well as making new family traditions - things like family vacations, pizza and game nights, weekends with family, decorating the house at Christmas, and decorating Christmas cookies.

# THOUGHTS ON ADOPTION

As we were going through the process of having biological kids, we discussed the possibility of adoption, although we also hoped to have biological kids, our plans are not God's and biological children have not happened. Our hearts are ready for children, and we are excited to become parents and provide a loving home for our children, however God brings them into our lives. If you are willing, we would like to send pictures and letter updates through the years. We will remind our child that their birth mom loved them, and how grateful we are that God brought us together.

THANK YOU!

Thank you for taking the time to read our profile and getting to know us. We look forward to adding to our family and hope you might be a part of it. We can't imagine the choice you have to make in choosing the family for your child. Thank you for considering giving that blessing to us.

WITH LOVE, JEREMY & HALEY
